

# Meet Andrea

## INTERNATIONAL YEAR of the WOMAN FARMER

Annie's Project January Woman Farmer

Andrea Parent-Tibbetts serves on the Annie's Project Advisory council in her spare time from her duties as fiber farmer!

On Clover Brooke Farm, she not only produces fibers from their llamas and alpacas, but she also hosts a variety of agritourism and educational events!

Andrea handles it all in as woman farmer - farm chores, business meetings and ventures, even furthering education with Annie's Project.

Andrea and so many others make it easy to celebrate 2026 as the International Year of the Woman Farmer. Each month we'll highlight a woman farmer within the Annie's Project network, stay tuned.

Annie's Project will be participating in International Year of the Woman Farmer celebrations all throughout 2026. Join us in webinars, listen to our upcoming podcasts, and check out our other IYWF inspired programming this year at [anniesproject.org](http://anniesproject.org).
